The exodus to summer resorts has begun and the Indiana retreats are more popular than usual. The distances are so short and the pleasure so great that many who could not possibly go East take a breathing spell at Maxinkuckee, Wawasee, Cedar Beach, French Lick, Bloomingdale, West Baden, Spencer, or some of the other places so well known. Within a few years people have discovered that it is not necessary to go outside the boundaries of the State to find beautiful scenery and perfect pleasure grounds at the water's edge and pleasure grounds at the water's edge, and hundreds are becoming regular summer intense heat of the past week has decided the matter in many families, and this week will witness heir departure for other places where they expect to find life more endur-

Morning receptions were inaugurated here some three years ago, and several were given here the first summer. While everybody declared them a pleasant innovation, but few followed the example set. For various reasons a morning reception is preferable to one in the afternoon, when the thermometer registers in the high degrees. The morning is cooler. The house has not become heated and the receptions are less formal. They do not interfere with one's afternoon nap, and the dainty lawn and mull gowns are comfortable and appropriate raiment. The refreshments are about the same as those served later in the day. though fruit salads often taking the place of ice-cream, and iced coffee and iced tea as well as lemonade are served.
